

- Conference Call with Live Audio Webcast on Thursday November 8th at 9:30 AM ET -

HOLLISTON, Mass., Nov. 2, 2018 /[PRNewswire](#)/ -- Biostage, Inc. (OTCQB: BSTG), a biotechnology company developing bioengineered organ implants to treat life-threatening conditions of the esophagus, bronchus and trachea, announced today that it will report its financial results for the three and nine months ended September 30, 2018 in a press release that will be issued pre-market on Thursday November 8, 2018. Biostage management also announced that it will host a conference call with a live audio webcast that same day at 9:30 AM ET to review its operational progress and financial report.

To participate in the call, please dial (877) 407-8293 (domestic) or (201) 689-8349 (international). The [live webcast](#) will be accessible on the [Events](#) page of the [Investors](#) section on the Company's website at www.biostage.com, and will be archived for 60 days. An audio webcast will be available for one week following the call and can be accessed during that period by dialing (877) 660-6853 (domestic) or (201) 612-7415 (international) with Conference ID #: 13684931.

About Biostage, Inc.

Biostage is a biotechnology company developing bioengineered organ implants based on the Company's Cellframe™ technology which combines a proprietary biocompatible scaffold with a

patient's own stem cells to stimulate tissue regeneration in certain organs. Cellspan™ implants are being developed to treat life-threatening conditions of the esophagus, bronchus or trachea with the hope of dramatically improving the treatment paradigm for patients. Based on its preclinical data, Biostage plans to address life-threatening conditions of the esophagus with the initial clinical applications of its technology.

Forward-Looking Statements:

Some of the statements in this press release are "forward-looking" and are made pursuant to the safe harbor provision of the Private Securities Litigation Reform Act of 1995. These "forward-looking" statements in this press release include, but are not limited to, statements relating to development expectations and regulatory approval of any of Biostage's products, including those utilizing its Cellframe™ technology, by the U.S. Food and Drug Administration, the European Medicines Agency or otherwise, which expectations or approvals may not be achieved or obtained on a timely basis or at all; or success with respect to any collaborations, clinical trials and other development and commercialization efforts of Biostage's products, including those utilizing its Cellframe™ technology, which such success may not be achieved or obtained on a timely basis or at all. These statements involve risks and uncertainties that may cause results to differ materially from the statements set forth in this press release, including, among other things, Biostage's ability to obtain and maintain regulatory approval for its products; Biostage's ability to expand into foreign markets, including China; plus other factors described under the heading "Item 1A. Risk Factors" in Biostage's Annual Report on Form 10-K for the fiscal year ended December 31, 2017 or described in its other public filings. Biostage's results may also be affected by factors of which Biostage is not currently aware. The forward-looking statements in this press release speak only as of the date of this press release. Biostage expressly disclaims any obligation or undertaking to release publicly any updates or revisions to such statements to reflect any change in its expectations with regard thereto or any changes in the events, conditions or circumstances on which any such statement is based.
